I suppose Nancy already knows this is now her project? Glad you were able to get it off your plate.

Hello Rebecca,

I wanted to let you know that effective immediately David Albright has re-assigned Nancy Rumrill to be the Permit Writer for this project. I believe you have her contact information, I have copied her on this message as well. Thank you for your efforts on this project.

Sincerely,

Michele

Subject: Gunnison Copper Project

Michele,

Thanks for getting back to me. Attached are the two items from the Sierra Vista Herald that we discussed. The one is the article written by Eric Petermann, who made a site visit out to Gunnison. The other is a letter from the editorial board of the paper. Both are very positive and reflect the efforts made by Excelsior to date to engage with the community.

Let me know if you have any questions.

Thank you,

Rebecca A. Sawyer
